ABOUT BUSINESS PLANNING

St Austell Brewery Ltd also wants to be convinced that you know what to do and why and that your plans are right for both you and the pub in question. For these reasons we ask all applicants to complete a business plan for the pub they are applying for.

A business plan can help you to:

- Consider all aspects of the business.
- Decide the best course of action to take things forward.
- Have a clear understanding of the pub and how you can make it work.

Please complete each section in as much detail as possible; guidance is available should you need it from the Business Development Manager for the pub.

By completing this business plan form St Austell Brewery Ltd does not commit itself to accept your application and for the avoidance of doubt, it does not constitute any offer, expressed or implied, of any appointment, lease, tenancy or business opportunity.

The Site

Provide a description of the pub, its facilities and trading history. Also talk about the immediate area surrounding the pub, focusing on possible sources of customers.

- Are any areas suitable for alternative use or redevelopment?
- Describe the existing building shape, facilities and condition including the exterior and outside areas
- What is the immediate area like? Residential, businesses, shops, roads, etc.

Demographics
Describe what sort of people live, work, or visit the area. Mention things such as age, occupation, wealth, housing, etc. This is your chance to show that the people that you intend to attract are around.
 Have you driven or walked around the area and talked to future customers, competitors and local businesses?
 The people who live nearby – how wealthy or poor are they? Are they old or young? Do they have families - old or young? What sort of houses do they live in? What condition is the housing in? How many people own a car? What do they do as jobs – work in an office, have a skilled trade, manual workers, unemployed? Do students live in the area?
 Who comes into the area WHY AND WHEN? Shoppers during the day? Office workers? Young people at night?
Think about which people will be your 'target market'
Developments
Indicate whether there are developments in the area that may influence trade.
 Ask around, speak to the council, find out what is happening in the area. Look in the local paper for licensing or planning applications
 Is the area doing well or is it in decline? Are shops opening or closing? Are houses selling? Is new housing being built?
 What specific future events might impact on trade - good or bad? e.g. the building of a shopping centre or the closure of a factory

FINANCES

It is essential that you forecast how much money you are likely to make. This should be the major factor in deciding whether you want to proceed with your business plan.

If you are unsure how to do this yourself, seek the assistance of an accountant or another independent professional advisor.

In this section please complete the following forecasts:

- A twelve-month profit and loss forecast This predicts how profitable the business is likely to be.
- A twelve-month cash flow forecast This will provide you with information on the actual flow of money into and out of the business. It will highlight the capital needs of the business, especially the working capital required.
- The money you will require This will ensure you have a full view of the costs associated with starting your business.
- Source of Funds This will provide a detailed account of where you will obtain the finance needed.

Your decision to take a St Austell Brewery Ltd Agreement should be influenced by these forecasts. Therefore, every effort should be made to ensure the greatest accuracy possible.

CASH FLOW

The cash flow projection is a support for your ideas for the pub and an aid to help you take an objective look at the financial aspects of the business. It will ensure that you have enough working capital or banking facilities to enable you to operate effectively throughout the first and most difficult year of trading.

Most of the items covered in this projection will match your profit and loss projection. However, it is worth mentioning that the profit and loss does not include VAT and the cash flow does include VAT.

You must try and project each month in turn thinking about how much money you intend to take and what expenses you may have in each month. For instance, you will probably project taking more money in December than January. You can do this by thinking about your likely drinks sales for each day of the week, adding this together for a weekly total and multiplying for the month. The same can be done for food, by working out how many meals you intend to serve and how much cash you intend to generate from each customer.

NB: Closing bank balance is carried forward each month to balance brought forward. Therefore, the calculation in the second month will be total income less expenditure plus balance brought forward equals closing bank balance. This figure may on occasions be a minus figure. This would therefore tell you when it would be necessary to arrange an overdraft facility or that you will need extra working capital.
